

Superior learning management for enhanced professional development

Effective employee training is vital for any business to thrive. Vision 2020 is the essential learning management system (LMS) for property management professionals. It **combines the industry's largest courseware library with the most advanced administration tools** to create a more engaging, personalized and performance-driven online learning experience for everyone in the company.

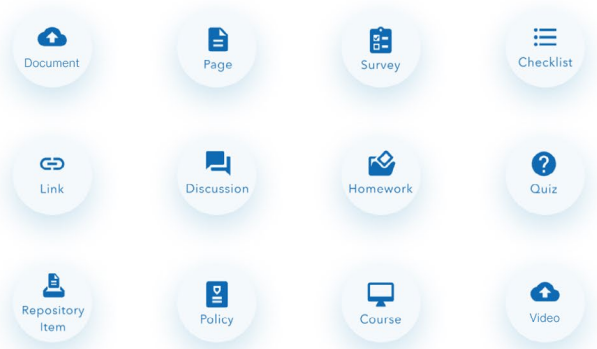

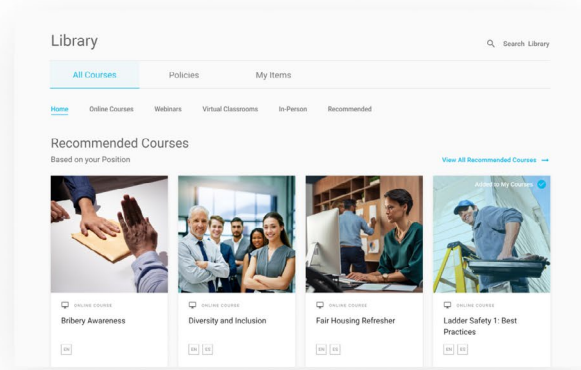

Vision 2020 makes learning simple and straightforward, **equipping your teams with the skills to be efficient, productive and prepared for every challenge.**

Vision enables you to...

Expand training and build expertise

- ✔ Over 600 short courses, quick quizzes, lunch and learn videos and webinars – on topics from sexual harassment, to fair housing, to diversity and inclusion – built specifically for multifamily professionals
- ✔ Results-driven courseware developed using adult learning science to increase comprehension and retention
- ✔ Learner experience that is intuitive, personal and fully mobile responsive

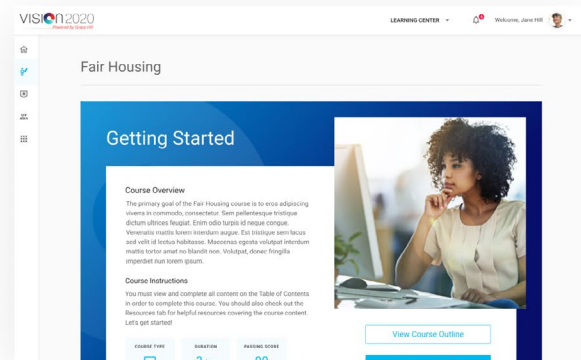

Leverage key efficiencies to maximize productivity

- ✔ Drag and drop technology allows administrators to create content in minutes – with no coding knowledge required
- ✔ An intelligent dashboard automates routine, time-consuming administrative tasks, from assigning and scheduling courses to tracking and reporting performance
- ✔ Configurable and scalable to integrate with other property management software

Reduce risk and protect your bottom line

- ✔ Full compliance protection with timely notifications and updates to courses
- ✔ Virtual classroom that is hassle-free, less expensive and well-suited to a social distance environment*
- ✔ 99.98% system uptime and US-based, in-house call-center support team – keeping you covered with comprehensive assistance

*Virtual Classroom is available for Platinum clients only

How it works...

Consult with a dedicated account manager to plan and implement an online courseware solution tailored to your company's needs.

Access our **600+ course library** to customize **content** for onboarding employees and help hone advanced skills.*

Use our **Course Builder tool** to create, save and store content, make updates and easily push changes across your organization – no more "old version"!**

Take advantage of our Learning Path Assignments to task your team members with personalized courses and deadlines.

Monitor and track the overall success of your training program with over 30 quick reports, shareable on demand.

See measurable results – retaining top talent and increasing property performance by keeping learners engaged, developing professional skills and compliant with best practices.
